

# IMMUNION

## IMPROVING IMMUNISATION COOPERATION IN THE EUROPEAN UNION

### OUR MISSION

IMMUNION is a 2-year project (2021-2023) co-funded by the European Union Health Programme. It will strengthen collaboration between healthcare professionals and other stakeholders to communicate evidence-based information about vaccination and increase vaccine confidence and uptake.

### OUR OBJECTIVES

- Enhance the Coalition for Vaccination and its long-term sustainability and visibility.
- Improve the dissemination of validated vaccination training materials and resources to healthcare professionals across Europe.
- Increase training opportunities for healthcare professionals and students on vaccination communication.
- Strengthen collaboration with the media on vaccination.
- Understand drivers of vaccine inequalities within countries and address vaccination coverage issues in vulnerable and underserved populations.

### IMMUNION AND THE COALITION FOR VACCINATION

The IMMUNION project will help to streamline the communication and joint activities of the Coalition, as well as its visibility. The three Coalition co-chairs are key partners in the IMMUNION project. They will ensure the broader engagement of health professionals from across Europe in IMMUNION activities.
